Public Notice

Improvements to Balsam Lane Parking Lot

The Town of Grimsby will be making improvements to the western portion of the Balsam Lane municipal parking lot as show in the attached map. The improvements will include:

- Reconstructing the Balsam Lane entrance onto Mountain Street.
- Reconfiguring the parking stall arrangement to allow an increase of 12 parking stalls.
- Realigning the east/west traffic aisle to accommodate the new entrance and parking stalls.

The entrance work is being completed in conjunction with the Region's resurfacing works taking place on Mountain Street. In order to complete this work, the entrance will be temporarily closed for approximately 10 working days (subject to weather) beginning April 29, 2019. We anticipate that 3 existing parking spaces will be affected during the period of the closure.

Once the entrance work is completed, the existing parking stall lines will be removed (painted over with black lines) and new parking stall lines will be painted. In order to reconfigure the parking stalls a larger area of the western parking lot will need to be closed for 1 day. We anticipate that 15 parking spaces will be affected during the second 1-day closure.

Once the new line work is painted the parking lot and entrance to Mountain Street will be reopened.

Should you have any questions regarding the project please contact:
